Higher Level Apprenticeship in Computing

NORTHERN
Regional College nrc

Location
Ballymena
(Farm Lodge)

Mode
Part-time

Duration
3 years

Costs
Tuition costs are covered
by the Department for the
Economy

Progression
On completing this Foundation
Degree you can progress
to the first year of study
on a computing degree at
university.

Entry conditions
Applicants should have
English and maths GCSEs at
grade C or above (or Essential
Skills English at Level 2), as
well as Level 3 qualifications
that are equivalent to 72 UCAS
points or higher.

About this Course

This exciting new Higher Level
Apprenticeship in Computing
is ideal for new IT workers,
computing teams seeking to
update their skills, or existing
staff whose roles are changing
to incorporate more IT duties.
The course, which is funded
by the Department for the
Economy, will provide you with
an Ulster University Foundation
Degree in Computing. You
will study one day per week at
our Ballymena (Farm Lodge)
campus and spend the rest
of the week working for an
employer.
